## BAG SEALING SOLUTIONS

### MPS 14000 HIGH SPEED & PERFORMANCE CONTINUOUS SEALER

The MPS 14000 has been designed to seal every style of pre-made, heat sealable bag on the market. Whether you require a high speed sealer or a machine that can seal your heavy duty bags (gusseted, multi-wall, thick laminates, etc.) at production speeds, this machine can handle the job. Unique features of the MPS 14000 include;

- A removable sealing module, which virtually eliminates downtime
- Add on options such as coders, bag top trimmers, and conveyors.
- Sealing head mounts for both horizontal & vertical operation with an crank adjustable range to operate in both horizontal and vertical positions.
- Digital control of all individual sealing parameters; heating & cooling temperatures, pressure, and speed.

### TECHNICAL SPECIFICATIONS

Seal Width:.....3/8"

Heater Bars:.....Two pairs of 10" long heater bars, individually controlled, pressure adjustable

Pressure Wheel:.....One 5" long pressure wheel

Cooling Bars:.....One set of 10" long, vortex cooled, pressure adjustable.

Approximate Speed:.....Variable to 1200" per minute

Constructions:.....Stainless Steel & anodized aluminum

Electrical:.....115 VAC, 60hz, single phase

Pneumatic:.....100 PSI at 5 CFM.
