- ★ **Uses readily available 20" wide skin film**

Description

Starview's MSP Series skin packaging machines are designed for low volume applications. They incorporate a stationary heating system with instant on/off heaters, which come up to heat instantly during cycles and turn off for loading/unloading. The MSP skin packaging machines have timer control for precision repeatability and an accurate turbine regulator. The MSP Series is available in the standard size 12 inches by 18 inches.
