Model SBP-SS-10 is a stainless bag opener designed for wicketed bags from 3" to 8½" wide. Shown here custom configured for rolled bandages in a tight bag, the SBP-SS-10 is designed to make those tough jobs easy. The wicketed bag is blown open by the 90cfm adjustable blower while the operator loads the tray and then slides all the product into the bag in seconds.

Features:

- All 304 stainless sheet metal and 18-8 stainless hardware
- Parallel action bag reservoir holds up to 300 bags / wicket
- 3 year warrantee on 90cfm blower motor
- Accepts wicketed, non-wicketed, flush cut, and saddle pack bags
- For PE, PP, Shrink film, Tyvek®, Laminates, Cellophane etc.
- 110 volt, 1 phase, 60hz @1 amp electrical. 220 V available
