## Sergeant® L-Sealer Model 2030C

The Sergeant® L-Sealer 2030-C has an ergonomic handle combined with the automatic take-away conveyor to ease operator fatigue and increase production efficiency. The dual electro-magnet timed latching system combined with the Simpulse™ Temperature Control System provides consistent jaw pressure and temperature assuring high strength identical seals every time for your shrink-wrap needs.

### Standard Features:

- Seal area: 20" x 30"
- Maximum film width: 26"
- Maximum package height: 8"
- Dual electromagnets hold seal jaw down for high strength seals
- Automatic take away conveyor
- Heavy duty casters lock for both swivel and roll
- Film perforator built in to film cradle – easy to load in seconds
- Shipping dimensions: 80"L x 43"W x 45"H
- Shipping Weight: 481 lbs
- 208-240 VAC/1 phase/13 amps/50-60Hz
